Re: **Mining Searches – Quinto Mining Corporation**

---

We have conducted the searches hereinafter described in respect of the mining titles listed under the heading "Mining Titles" in Appendix "A" hereto, which comprises 264 active map designated claims (the "Claims").

For the purposes hereof, we have conducted the searches hereinafter described in respect of the Claims. In conducting our searches, we have assumed the accuracy of the mining title identification numbers of the Claims. We have not conducted any investigations as to the accuracy of the mining titles identification numbers of the Claims, nor conducted any searches other than those identified in this opinion.

### I. Public register of real and immovable mining rights

We have reviewed the computerized printouts (fiches) of mining titles obtained electronically on December 7, 2015 at 9:00 a.m. (the "**PRRIMR Effective Date**") from the on-line public register of real and immovable mining rights granted under the Mining Act (as defined below) (the "**PRRIMR**") (via the Gestim Plus title management system) in respect of the Claims (the "**PRRIMR Records**"). The PRRIMR is maintained by the Ministère de l'Énergie et des Ressources naturelles (Québec) (the Quebec Ministry of Energy and Natural Resources) ("**MERN**") pursuant to the *Mining Act* (Quebec) (R.S.Q. c M-13.1) (the "**Mining Act**") to record the mining titles issued pursuant to the Mining Act. For greater certainty, we have not reviewed any maps or NTS sheets or any other information available in the GESTIM Plus in respect of the Claims other than the PRRIMR Records and the deeds, agreements and instruments specifically referred to under the heading "Transfers" and "Instruments or Other Related Documents" in such PRRIMR Records.

The PRRIMR Records reveal, in particular, the following, as of the PRRIMR Effective Date:

- Quinto Mining Corporation (titleholder No. 95800)** is shown in the PRRIMR as holder of 99% interest in the 264 of the Claims defined as "**QMC/CQIM Claims**" in Appendix "A" hereof. **Cliffs Québec Mine de Fer Limitée (titleholder No. 88332)** is shown in the PRRIMR as the registered holder of the remaining 1% interest in the QMC/CQIM Claims.

2. All Claims have active status.
3. The expiry date of each Claim is set out in the column "Expiry Date" in Appendix "A", and the earliest expiry date is **March 26, 2017**. The term of the Claims may be renewed, prior to the expiry thereof, for periods of two years, subject to compliance with the provisions set forth in the Mining Act. Each Claim will automatically expire on the expiry date of such Claim set forth in Appendix "A", unless renewed prior to the expiry thereof in accordance with the Mining Act.
4. No "Instruments or Other Documents" (for example, hypothecs or other security documents, discharges, royalty and other commercial agreements) are registered in the PRRIMR in respect of the Claims that remain undischarged or not terminated.

In addition to the information summarised above, the PRRIMR Records contain information such as, but not limited to, the location of the claims, the surface area of the claims, the amount of work required for the renewal of the term of the claims and other information. For the purposes of this search report, we have not reviewed such information, but would be pleased to provide it upon request.

Please note that the recording of deeds in the PRRIMR is not necessarily up to date. Moreover, the GESTIM Plus title management system website does not indicate the date to which the recording of deeds thereon is current. According to information received recently from MERN, the current approximate processing time for registration in the PRRIMR of transfers, security and other instruments relating to mining titles is [●] days. Please also note that the PRRIMR does not disclose rights that have been received by MERN for registration in the PRRIMR but have not been processed yet.

## II. Land Register

The Register of Real Rights of State Resource Development is a sub-division of the Land Register. Please note that before December 10, 2013, pursuant to the *Mining Act* (Quebec), mining claims were exempt from registration in the Land Register, although claims could be registered at such register. Effective December 10, 2013 the foregoing exemption was abolished.

### 1. Directory of Real Rights Holders of the Register of Real Rights of State Resource Development for the Registration Division of Saguenay

We have examined on December 7, 2015 the Directory of Real Rights Holders of the Register of Real Rights of State Resource Development for the Registration Division of Saguenay for land files listed under the names "CONSOLIDATED THOMPSON IRON MINES LIMITED" and "QUINTO MINING CORPORATION/LA CORPORATION QUINTO MINING". Such search revealed the existence of the land files opened in respect of the Claims as set out in Appendix "B", being 264 land files opened in respect of the QMC/CQIM Claims (such land files, the "**QMC/CQIM Land Files**", also named the "**Land Files**").

Our searches at the Directory of Real Rights Holders of the Register of Real Rights of State Resource Development for the Registration Division of Saguenay under the name QUINTO MINING

CORPORATION on December 7, 2015 also disclosed that land files have also been opened in the name of QUINTO MINING CORPORATION in respect of other mining claims. Please note that such other mining claims are not comprised in the Claims and are not the subject of our searches summarized in this report.

**2. Register of Real Rights of State Resource Development for the Registration Division of Saguenay**

We have examined the online Land Files at the Register of Real Rights of State Resource Development for the Registration Division of Saguenay (the “**RRRSRD**”), current as to rights as at December 4, 2015, at 4: p.m. (the “**RRRSRD Effective Date**”), and current as to discharges as at November 4, 2015, at 2:44 p.m., for the period from January 26, 2010, being the date of the registration of the opening of the Land Files, to the RRRSRD Effective Date. Such searches revealed that, as of the RRRSRD Effective Date:

1. There are no hypothecs or other charges registered against such Land Files that remain undischarged or not terminated.
2. The QMC/CQIM Claims Land Files show Quinto Mining Corporation as sole holder of the QMC/CQIM Claims.

Please note that we have conducted a visual search of the Land Files and have not extensively reviewed the deeds recorded thereat.

### **III. General**

This search memorandum does not constitute a title opinion in regard to the Claims listed in Appendix “A”. No opinion whatsoever is expressed in respect of the hypothecs, transfer documents or any other agreements summarized in this search memorandum.

Please also note that our searches do not disclose:

1. any statutory, legal or conventional hypothecs or other liens to which the Claims may be subject and which are not registered in the PRRIMR, the RRRSRD or in any other register searched for the purposes hereof or which are exempt from registration in such registers; in this regard, please be advised that further to the adoption of the *Act to Amend the Mining Act* (S.Q. 2013, c.32) (the “**Mining Act Amendment**”) and the changes brought therewith to Article 13 of the Mining Act in force prior to the Mining Act Amendment, effective December 10, 2013 the registrar of the PRRIMR does not accept for registration at said PRRIMR deeds of hypothec or any other “Instruments or Other Related Documents” in respect of mining claims any longer (other than renewals, transfers, surrenders, abandonments, revocations, expiry and promises to purchase relating to mining claims).
2. any personal unregistered rights such as royalties;

3. the rights granted under the Mining Act to third parties which do not require publication or registration in the PRRIMR, the RRRSRD or in any other register searched for the purposes hereof;
4. the surface rights to the parcels of land subject to the Claims. Under Quebec law, land surface rights are distinct property from the mining rights (i.e. the rights to mineral substances beneath the soil) and complex land title searches must be conducted to determine the holder of the rights to the parcels that are the subject of mining rights;
5. the existence of any rights of third parties to bring forth a motion for recognition of ownership based on prescription nor on the existence of any claim which may be brought by third parties for invalidity of the Claims based on no-existent or incorrect staking;
6. any litigation that may exist in respect of the Claims;
7. the aboriginal title or rights that may exist or claimed in respect of the Claims or the parcels of land subject to the Claims.

The information for our searches was obtained through public office records and the searches were conducted by registry employees and /or by using computer systems and we do not warrant the accuracy of the data generated by the computer systems or received from registry employees. MERN is unable to guarantee the complete accuracy or precision of data made available in the on-line PRRIMR, the online directory of real rights holders (holders of mining rights) and the online register of real rights of State resource development of the Land Register we consulted, or the access to all data contained in such registers. MERN disclaims any responsibility for any loss or prejudice that may result from decisions made, interpretation of the data, or any action or failure to act as a result of using the online PRRIMR, the online directory of real rights holders (holders of mining rights) and the online register of real rights of State resource development of the Land Register we consulted.

If you would like to discuss the results summarised in this report or if you require further searches, please do not hesitate to contact us.
