**AFFIDAVIT OF KEVIN LATHAN
SWORN (OR AFFIRMED) ON OCTOBER 22, 2021**

I, **KEVIN LATHAN**, of the City of Clearwater, in the State of Florida, of the United States of America,
MAKE OATH/AFFIRM AND SAY THAT:

1. I am the President of Construction e Link, Inc. ("ELink"), and as such have personal knowledge of the fact and matters herein attested to except where stated to be based upon information and belief, in which case I do verily believe the same to be true.

Parties

2. ELink is a Florida corporation incorporated and carrying on business in the State of Florida, in the United States of America.

3. ELink is a very small company that assists infrastructure and civil constructors with products and services related to environmentally-friendly solutions to heavy equipment access. We have developed some patented products over the years and one such product is the Omega Beam (the “Beam”). We provide engineered material solutions for supporting unique heavy loads and this requires both technical and operational understanding which we undertake as a necessary element on every sale. Attached as Exhibit “A” to this my Affidavit are photographs of the Beams.

4. Unfortunately, this CCAA proceeding has put our entire entrepreneurial enterprise in financial jeopardy.

5. Coalspur Mines (Operations) Ltd. (“Coalspur”) operates as a coal mine in Hinton, Alberta (the “Mine”).

6. Coalspur is the registered owner of coal lease rights (the “Lands”) as follows:

Agreement Type/Number	Land
013 1308120624	All Lands

Contract for material and service with Coalspur

7. On September 9, 2020 Coalspur approached ELink to supply patented Omega Beams (the “Beams”) for assembly into a temporary bridge at the Mine. Coalspur advised me that it had searched for many months for an appropriate heavy bridge solution before finding ELink.

8. The Beams are a unique material solution designed to support some of the heaviest truckloads in the world. ACROW Bridge, the world leaders in heavy and temporary bridging, uses the Beams in cases where load and bridge capacity requirements surpass even their product offerings, and ACROW Bridge referred Coalspur to ELink due to their specific needs.

9. Coalspur faced environmental challenges related to getting their 500 Ton mining trucks to a new area of the Mine. Coalspur needed to protect a fish-bearing stream while enabling some of the largest trucks on the planet to safely drive over the body of water without disrupting its flow nor its benthic

profile. Attached as Exhibit "B" to this my Affidavit are photographs of the mining trucks that Coalspur uses.

10. Due to the nature of the product and its uses, it is of the utmost importance to guide Beam users during the construction process especially when dealing with super heavy loads. The loads of a truck are both moving and potentially bouncing up and down. Hence, the Beams need to be affixed to a foundation for lateral support and to gravity anchors to provide lateral support, then topped with a deck that distributes the trucks huge wheel loads. When such a unique beam element like the Beams is supplied, it is essential to the client, the users, the community, and the environment to provide such services after the delivery. The bridge structure is about fifteen (15) times stronger than a typical highway bridge, hence service in the form of necessary consultation is part of any sale we make.

11. Given the unique and specialized nature, the intended installation and use of these Beams, ELink represented to Coalspur during negotiations for the purchase of the Beams that ELink would provide continuing consultative and support services to Coalspur before and after delivery of the Beams, particularly regarding installation and assembly of the Beams into a functional bridge.

12. On or about November 30, 2020, ELink and Coalspur entered into a purchase agreement (the "Purchase Agreement") pursuant to which, among other things:

- a. Coalspur agreed to purchase from ELink 10 Beams for use as a temporary bridge at the Mine;
- b. The purchase price was \$28,900 USD per Beam, plus \$1,600 USD per Beam blast and gray coating, for a total purchase price of \$305,000.00 USD;
- c. The purchase price would be invoiced 25% on the date of the Purchase Agreement, 25% upon completion of the final design of the project; 25% on the first delivery of the Beams and 25% within 45 days of the last Beam delivered to Coalspur;
- d. Coalspur would pay to ELink such invoiced amounts within 30 calendar days of receipt of such invoices;
- e. The Purchase Agreement was governed by the law of Alberta and is a contract made in the Province of Alberta;
- f. Coalspur was to retain 10% of the value of the "services actually performed and the materials furnished" to release the holdback to ELink pursuant to the terms of the Builders' Lien Act. When 45 days expired from the date of the certificate of substantial performance in respect of the delivery of the Beams, and no liens

registered with respect to ELink's delivery of the Beams, Coalspur was to release ELink's portion of the major lien fund to ELink (Section 15); and,

- g. That a "Special Condition" was that access would be provided to the project site to ELink by Coalspur in the Summer 2021 (Section 13).

Attached as Exhibit "C" to this my Affidavit is a copy of the Purchase Agreement.

13. The inclusion of the Special Condition requiring access in Summer 2021 in Section 13 was intended to allow Construction e Link, Inc. to be able to have permission to access, inspect and evaluate the performance of Omega Beams after they had been in service supporting super heavy loads during both the winter and the summer season. Structural steel behaves differently seasonally; the loadings, extreme and geotechnical conditions and frost heaves are typically evaluated as well. This type of inspection and project review is necessary part of our service offering that ELink promises and the clients, including Coalspur, expect. The reference to "assistance to be facilitated by Buyer" was due the COVID restrictions in place at the time, as it was anticipated there could be difficulty entering Canada in order to inspect the Beams at the project site.

14. On or about December 16, 2020, ELink delivered the Beams to Coalspur.

15. Both before and after delivery, ELink continued to render services to Coalspur by telephone and other electronic methods for the bridge construction project, with the majority of the work being done after delivery with Mr. Ian Shaw of Coalspur (the "Services").

16. The Services included:

- a. Assisting efforts in the proper incorporation of Beams into the bridge foundation that supports and connects to the Beams.
- b. Sourcing and providing practical and technical guidance on the bridge's deck structure that was supported by and connected directly to the Beams.

17. Attached as Exhibit "D" to this my Affidavit is a copy of text messages sent by Mr. Shaw to ELink in December 2020 and January 2021, showing photographs of ongoing work so that ELink could provide ongoing support as to the bridge assembly and installation.

18. Our last digital correspondence with Mr. Shaw and the operational construction team that we were supporting was on January 29th, 2021, by text, and February 1st, 2021, by email. Previously attached as Exhibit “D” to this my Affidavit is a copy of the text from January 29, 2021. Attached as Exhibit “E” to this my Affidavit is a copy of the February 1, 2021 email.

19. Our communications essentially ended when we received two emails from Coalspur AP on February 5th, 2021, promising payment and follow up call to us the coming days. This seemed an odd occurrence to us. We reached out on the phone with Mr. Shaw that same day, but our suspicions increased as Mr. Shaw did not share much information nor did he seek additional information regarding the current Beam utilization detail at the time, being the attachment of the thrust blocks through the backwalls to the Beam end plates at a new elevation. Attached as Exhibit “F” to this my Affidavit is a copy of the February 5, 2021 emails.

20. As a result, on February 5, 2021, ELink registered a builders’ lien in the amount of \$228,750.00 USD plus interest and costs against title to the Lands as Registration No. 2100109 (the “Lien”).

21. Attached as Exhibit “G” to this my Affidavit is a copy of the confirmation of registration of Lien.

22. ELink has issued invoices (the “ELink Invoices”) to Coalspur pursuant to the terms of the Purchase Agreement as follows:

Invoice No.	Date Due	Invoice amount
204014.2	1/15/2021	\$76,250.00 USD
204014.3	2/4/2021	\$152,500.00 USD
Total		\$228,750.00 USD

Attached as Exhibit “H” to this my Affidavit are copies of the ELink Invoices.

23. Demand has been made for the ELink Invoices and Coalspur has failed to pay the Invoices within 30 days of service, and the amount of \$228,750.00 USD (\$283,924.50 CAD) remains due and owing.

24. On July 30, 2021 a Statement of Claim and Certificate of Lis Pendens (the "CLP") was filed in Court File No. 2103 11022. Attached as Exhibit "I" to this my Affidavit is a copy of the Statement of Claim and CLP.

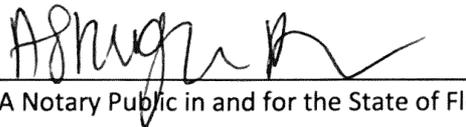

25. On August 3, 2021 the CLP was registered against title to the Lands as Registration No. 2101057. Attached as Exhibit "J" to this my Affidavit is a copy of the confirmation of registration of the CLP.

26. On September 22, 2021 the Applicant submitted a secured claim to the Monitor pursuant to the Claims Process Order of August 9, 2021 for \$283,924.50 (the "Claim"). Attached as Exhibit "K" to this my Affidavit is a copy of the Claim.

27. On October 8, 2021 the Monitor disallowed the Claim as a secured claim, but allowed the Claim as an unsecured claim (the "Notice of Revision"). Attached as Exhibit "L" to this my Affidavit is a copy of the Notice of Revision.

28. I swear this Affidavit in support of an Application to set aside the Notice of Revision and accept the Claim as a secured claim.

Subject: FW: pics deadman issue

Kevin,

When we put the holes in the dead man for the threaded bar to go through we put them too high on the deadman. They are 8" from the top of the deadman. The deadman on average is 40" high across the entire deadman. I was going to drill new holes but it has turned into a little bit of a problem getting them done in a timely manner. If we use the holes that are 8" from the top of the deadman it will be straight across from where the holes are for the rebar on the omega beams. Is this something we can do? I would rather do this than drill new holes.

- a. Coalspur agreed to purchase from ELink 10 Omega Beams (the "Beams") for use as a temporary bridge at the Mine;
- b. The purchase price was \$28,900 USD per Beam, plus \$1,600 USD per Beam blast and gray coating, for a total purchase price of \$305,000.00 USD;
- c. The purchase price would be invoiced 25% on the date of the Purchase Agreement, 25% upon completion of the final design of the project; 25% on the first delivery of the Beams and 25% within 45 days of the last Beam delivered to Coalspur;
- d. Coalspur would pay to ELink such invoiced amounts within 30 calendar days of receipt of such invoices;
- e. Coalspur was to retain 10% of the value of the services rendered and to release the holdback to ELink pursuant to the terms of the Builders' Lien Act. When 45 days expired from the date of the certificate of substantial performance in respect of the delivery of the Beams, and no liens registered with respect to ELink's delivery of the Beams, Coalspur was to release ELink's portion of the major lien fund to ELink; and,
- f. The Purchase Agreement was governed by the law of Alberta and is a contract made in the Province of Alberta.

10. ELink has delivered the Beams, and fulfilled all of its obligations to Coalspur in accordance with the terms of the Purchase Agreement.

11. ELink has issued invoices (the "ELink Invoices") to Coalspur pursuant to the terms of the Purchase Agreement as follows:

Invoice No.	Date Due	Invoice amount
204014.2	1/15/2021	\$76,250.00 USD
204014.3	2/4/2021	\$152,500.00 USD

Total		\$228,750.00 USD
-------	--	-------------------------

12. Demand has been made for the ELink Invoices and Coalpsur has failed to pay the Invoices within 30 day of service, and the amount of \$228,750.00 USD remains due and owing.

13. At all material times, Coalpsur was or is the “Owner” of the Lands, as defined in the Builders’ Lien Act, and at whose request, express or implied, and on whose credit, on whose behalf, with whose privity and consent, or for whose direct benefit, the Beams were supplied by ELink.

14. By reason of supplying the Beams, ELink became entitled to a valid builders’ lien upon the Lands in an amount of at least \$228,750.00 USD plus interest and costs.

15. In further breach of the Purchase Contract and its statutory obligations pursuant to the Builders’ Lien Act, Coalpsur failed neglected or refused to pay ELink the holdback amount on the first calendar following the expiry of the holdback period.

16. As a result of Coalpsur’s failure or refusal to pay the amount due and owing to ELink, pursuant to the *Builders’ Lien Act*, ELink registered a builders’ lien in the amount of \$228,750.00 USD plus interest and costs against title to the Lands on February 5, 2021 as Registration No. 2100109 (the “Lien”).

17. The Beams were supplied by ELink on or in respect of an improvement to the Lands as defined by the *Builders’ Lien Act*, and ELink states that as a result of the Beams supplied, the value of the Lands has increased by at least the amount of \$228,750.00 USD plus interest and costs.

18. ELink refers to section 69 of the *Builders’ Lien Act* and states that it is entitled to costs on a solicitor and own client basis, as well as costs of the proceedings as a result of the failure of Coalpsur to fulfill the terms of the Purchase Agreement in respect of which the Lien is sought to be enforced.

19. ELink pleads and relies upon the provisions of the Builders’ Lien Act, as amended and the regulations thereunder.

20. In the alternative, the Defendant has been unjustly enriched to the extent of \$25,930.00 USD in respect of Omega and \$228,750.00 USD in respect of ELink, and the Plaintiffs deprived of monies that are rightfully the Plaintiffs’, with there being no juristic reason for the same.

21. Such further and other facts as may be pled at a trial of the matter.

Remedy sought:

22. Judgment against the Defendant awarding Omega the sum of \$25,930.00 USD for amounts owing under the Design Contract;

23. Judgment against the Defendant awarding Omega interest on the sum of \$25,930.00 USD at the rate of 1.5% per month from the date of invoice to the date of payment or in the alternative, judgment for interest pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1 for amounts owing on the Omega Invoices;

24. Judgment against the Defendant awarding ELink the sum of \$228,750.00 USD for amounts owing under the Purchase Contract;
25. Judgment against the Defendant awarding ELink interest on the sum of \$228,750.00 USD pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1 for amounts owing on the ELink Invoices;
26. A Judgment, Declaration or Order that ELink is entitled to a valid and subsisting charge under the Builders' Lien Act against the Lands in the sum of \$228,750.00 USD plus interest and costs;
27. An order that the Lands be sold to satisfy any unpaid judgment;
28. In the alternative:
 - a. Judgment against the Defendant awarding Omega the sum of \$25,930.00 USD for amounts owing under the Design Contract;
 - b. Judgment against the Defendant awarding Omega interest on the sum of \$25,930.00 USD at the rate of 1.5% per month from the date of invoice to the date of payment or in the alternative, judgment for interest pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1 for amounts owing on the Omega Invoices;
 - c. Judgment for costs on a solicitor and his/her own client basis; and,
 - d. A direction that the 10 Beams be returned to ELink at the original shipping location in St. Louis, Missouri, United States of America by August 31, 2021 and waiving any claim by the Defendant to the 10 Beams and associated intellectual property.
29. In the further alternative, judgment for damages for unjust enrichment in the amount of \$228,750.00 USD to ELink and \$25,930.00 USD to Omega, plus interest pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1;
30. Judgment for costs on a solicitor and his/her own client basis; and,
31. Such further and other relief as the nature of the case may require and this Honourable Court may deem just to grant.

Note: State below only facts and not evidence (Rule 12.11)

Statement of facts relied on:

1. The Plaintiff Omega Trestle LLC ("Omega") is a limited liability company incorporated and carrying on business as a designer of access trestles in the State of Florida, in the United States of America.

- a. Omega was to provide design services to construct a temporary high capacity bridge structure for Coalspur;
- b. Invoices would be submitted by Omega within 15 days of the end of each month in which the services were performed, and Omega would provide 10 days notice of any past due invoices;
- c. Services would be charged at an hourly rate of \$150.00 USD per hour for engineering services and \$80.00 per hour for computer-aided design and drafting services;

- e. A service charge of 1.5% per month were assessed on overdue balances;
- f. Coalspur was to retain 10% of the value of the services rendered and to release the holdback to Omega pursuant to the terms of the Builders’ Lien Act. When 45 days expired from the date of the certificate of substantial performance, and no liens registered with respect to Omega’s work, Coalspur was to release Omega’s portion of the major lien fund to Omega;
- g. If any action is instituted to enforce the Design Agreement, the prevailing party is entitled to recovery all costs, fees, and reasonable attorneys’ and paralegals’ fees on a solicitor and own client basis; and
- h. The Design Agreement was governed by the law of Alberta.

6. Omega has issued invoices (the “Omega Invoices”) to Coalspur for services rendered as follows:

Invoice No.	Date Due	Invoice amount
203031.1	12/32020	\$10,005.00
203031.2	12/31/2020	\$6,690.00

8. Omega has fulfilled all of its obligations to Coalspur in accordance with the terms of the Design Agreement.

9. On or about November 30, 2020, ELink and Coalspur entered into an agreement entered into a purchase agreement (the "Purchase Agreement") pursuant to which, among other things:

- a. Coalspur agreed to purchase from ELink 10 Omega Beams (the "Beams") for use as a temporary bridge at the Mine;
- b. The purchase price was \$28,900 USD per Beam, plus \$1,600 USD per Beam blast and gray coating, for a total purchase price of \$305,000.00 USD;
- c. The purchase price would be invoiced 25% on the date of the Purchase Agreement, 25% upon completion of the final design of the project; 25% on the first delivery of the Beams and 25% within 45 days of the last Beam delivered to Coalspur;
- d. Coalspur would pay to ELink such invoiced amounts within 30 calendar days of receipt of such invoices;
- e. Coalspur was to retain 10% of the value of the services rendered and to release the holdback to ELink pursuant to the terms of the Builders' Lien Act. When 45 days expired from the date of the certificate of substantial performance in respect of the delivery of the Beams, and no liens registered with respect to ELink's delivery of the Beams, Coalspur was to release ELink's portion of the major lien fund to ELink; and,
- f. The Purchase Agreement was governed by the law of Alberta and is a contract made in the Province of Alberta.

10. ELink has delivered the Beams, and fulfilled all of its obligations to Coalspur in accordance with the terms of the Purchase Agreement.

11. ELink has issued invoices (the "ELink Invoices") to Coalspur pursuant to the terms of the Purchase Agreement as follows:

Invoice No.	Date Due	Invoice amount
204014.2	1/15/2021	\$76,250.00 USD
204014.3	2/4/2021	\$152,500.00 USD

Total		\$228,750.00 USD
-------	--	-------------------------

12. Demand has been made for the ELink Invoices and Coalpsur has failed to pay the Invoices within 30 day of service, and the amount of \$228,750.00 USD remains due and owing.

13. At all material times, Coalpsur was or is the “Owner” of the Lands, as defined in the Builders’ Lien Act, and at whose request, express or implied, and on whose credit, on whose behalf, with whose privity and consent, or for whose direct benefit, the Beams were supplied by ELink.

14. By reason of supplying the Beams, ELink became entitled to a valid builders’ lien upon the Lands in an amount of at least \$228,750.00 USD plus interest and costs.

15. In further breach of the Purchase Contract and its statutory obligations pursuant to the Builders’ Lien Act, Coalpsur failed neglected or refused to pay ELink the holdback amount on the first calendar following the expiry of the holdback period.

16. As a result of Coalpsur’s failure or refusal to pay the amount due and owing to ELink, pursuant to the *Builders’ Lien Act*, ELink registered a builders’ lien in the amount of \$228,750.00 USD plus interest and costs against title to the Lands on February 5, 2021 as Registration No. 2100109 (the “Lien”).

17. The Beams were supplied by ELink on or in respect of an improvement to the Lands as defined by the *Builders’ Lien Act*, and ELink states that as a result of the Beams supplied, the value of the Lands has increased by at least the amount of \$228,750.00 USD plus interest and costs.

18. ELink refers to section 69 of the *Builders’ Lien Act* and states that it is entitled to costs on a solicitor and own client basis, as well as costs of the proceedings as a result of the failure of Coalpsur to fulfill the terms of the Purchase Agreement in respect of which the Lien is sought to be enforced.

19. ELink pleads and relies upon the provisions of the Builders’ Lien Act, as amended and the regulations thereunder.

20. In the alternative, the Defendant has been unjustly enriched to the extent of \$25,930.00 USD in respect of Omega and \$228,750.00 USD in respect of ELink, and the Plaintiffs deprived of monies that are rightfully the Plaintiffs’, with there being no juristic reason for the same.

21. Such further and other facts as may be pled at a trial of the matter.

Remedy sought:

22. Judgment against the Defendant awarding Omega the sum of \$25,930.00 USD for amounts owing under the Design Contract;

23. Judgment against the Defendant awarding Omega interest on the sum of \$25,930.00 USD at the rate of 1.5% per month from the date of invoice to the date of payment or in the alternative, judgment for interest pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1 for amounts owing on the Omega Invoices;

24. Judgment against the Defendant awarding ELink the sum of \$228,750.00 USD for amounts owing under the Purchase Contract;
25. Judgment against the Defendant awarding ELink interest on the sum of \$228,750.00 USD pursuant to the *Judgment Interest Act*, R.S.A. 2000 c. J-1 for amounts owing on the ELink Invoices;
26. A Judgment, Declaration or Order that ELink is entitled to a valid and subsisting charge under the Builders' Lien Act against the Lands in the sum of \$228,750.00 USD plus interest and costs;
27. An order that the Lands be sold to satisfy any unpaid judgment;
28. In the alternative:
 - a. Judgment against the Defendant awarding Omega the sum of \$25,930.00 USD for amounts owing under the Design Contract;
 - b. REASON(S) FOR THE REVISION:

The Monitor, in consultation with Coalspur, has reviewed your Proof of Claim. Based on the material provided, the Monitor has revised your Claim as follows:
