**AFFIDAVIT OF JASON PANTER**  
**sworn October \_\_, 2020**

I, Jason Panter, of the Hamlet of Ardrossan, in the Province of Alberta, **MAKE OATH**  
**AND SAY THAT:**

1. I am a Project Manager/Estimator at the Applicant JMB Crushing Systems Inc. ("**JMB**").  
As such, I have personal knowledge of the matters herein deposed to, except where stated  
to be based upon information and belief, in which case I verily believe same to be true.

2. In preparing this Affidavit, I reviewed the business records of JMB relevant to this Application and have satisfied myself that I am possessed of sufficient information and knowledge to swear this Affidavit.
3. I am authorized to swear this Affidavit as corporate representative of JMB.

**Background**

4. JMB's business is the extraction, processing, transportation and sale of gravel, sand and other aggregates in the Province of Alberta. JMB either directly or through its subsidiary 2161889 Alberta Ltd., has rights of access to over 50 aggregate pits in Alberta through surface material leases with the Province of Alberta and royalty agreements with private individuals or companies, and has freehold title to one aggregate pit. The aggregates are produced to customer specifications and delivery services are provided to various locations in northeastern Alberta.
5. JMB, through its predecessor company JMB Crushing Systems ULC ("**JMB ULC**"), entered into an Aggregates Royalty Agreement (the "**Shankowski Royalty Agreement**") with Jerry Shankowski ("**Shankowski**"). Shankowski is the owner of lands located at SW-21-56-7-W4 (the "**Shankowski Land**").
6. Pursuant to the Shankowski Royalty Agreement, JMB was granted the exclusive right to access the Shankowski Land to explore, prospect for, test, get, process and dispose of aggregates contained in the Shankowski Land. Attached hereto as **Exhibit "A"** is a copy of the Shankowski Royalty Agreement.
7. In exchange for the exclusive rights granted to JMB, JMB was to pay royalties to Shankowski at differing rates depending upon the type and size of the aggregate removed from the Shankowski Land. The royalties were payable 90 days after the aggregate was removed from the Shankowski Land. In the aggregate industry it is common for land owners to grant licenses to aggregate companies in exchange for the payment of royalties on the volume of aggregate extracted from the land.

8. JMB ULC also entered into an Aggregates Royalty Agreement dated November 8, 2018 with Helen and Gail Havener (the "**Havener Royalty Agreement**"). The Estate of Helen Havener and Gail Havener own the land described as NW-16-56-7-W4M (the "**Havener Land**").
9. Pursuant to the Havener Royalty Agreement, JMB was granted the exclusive right to access the Havener Land to explore, prospect for, test, get, process and dispose of aggregates contained in the Havener Land. JMB was also granted the right of first refusal to match any offer to purchase made on the Havener Land. Attached hereto as **Exhibit "B"** is a copy of the Havener Royalty Agreement.
10. In exchange for the exclusive rights granted to JMB, JMB was to pay royalties to the Haveners at differing rates depending upon the type and size of the aggregate removed from the Havener Land. The royalties were payable 90 days after the monthly report of aggregate removed from the Havener Land was produced.

#### **Bonnyville Project**

11. On or about November 1, 2013, JMB ULC contracted with the Municipal District of Bonnyville No. 87 (the "**MD of Bonnyville**") for the production, hauling and stockpiling of crushed aggregate materials for use in road construction (the "**Bonnyville Contract**"). Attached hereto as **Exhibit "C"** is a copy of the Bonnyville Contract, as amended.
12. In order to complete the 2020 supply for the Bonnyville Contract, JMB:
  - (a) Extracted aggregate from the Shankowski Land. In the aggregates industry, the removal of top soil and overburden to expose the raw aggregate pit run is also often referred to as "stripping". The exposed raw aggregate pit run is then kept in what is referred to as a gravel bank;
  - (b) Entered into a Subcontractor Services Agreement with RBEE Aggregate Consulting Ltd. ("**RBEE**"), on or around February 25, 2020, pursuant to which RBEE agreed to provide crushing services to produce gravel from the raw

aggregate pit run. RBEE was to provide crushing services in respect of the Bonnyville Contract;

- (c) Between approximately February 25, 2020 and April 8, 2020, RBEE crushed the raw aggregate pit run that was extracted from the Shankowski Land. To do so, RBEE would move the raw aggregate pit run from the gravel bank (also referred to in the industry as "gravel marshalling") to RBEE's mobile crushing unit. This mobile crushing unit was brought onto the Shankowski Land by RBEE to perform the crushing services. Once the crushing services were complete, the mobile crushing unit would be removed from the Shankowski Land and returned to RBEE's premises. Attached hereto as **Exhibit "D"** is a AbaData map of the Shankowski Land and the Havener Land, showing the approximate RBEE crushing footprint;
- (d) Asked RBEE to perform some stripping on the Shankowski Land. While JMB did the vast majority of stripping on the Shankowski Land for the Bonnyville Contract, RBEE did perform a small amount of stripping, as JMB did not strip and expose enough raw aggregate pit run to complete the volume of crushing for the 2020 supply for the Bonnyville Contract. RBEE invoiced JMB \$7,500 in stripping costs. Attached hereto as **Exhibit "E"** is a copy of the April 16, 2020 invoice from RBEE to JMB;
- (e) Engaged J.R. Paine on or about April 1, 2020, to perform aggregate testing services in respect of the Bonnyville Contract. As part of the aggregate testing services provided, J.R. Paine tested the crushed aggregate from the Shankowski Land to ensure it complied with the specifications in the Bonnyville Contract. J.R. Paine's testing services were completed by April 8, 2020. J.R. Paine did not perform any testing services on the Havener Land or of aggregate from the Havener Land in respect of the Bonnyville Contract. Attached hereto as **Exhibits "F"** and **"G"** are copies of the Purchase Order dated April 1, 2020 and the invoices submitted by J.R. Paine to JMB for testing services performed from February 25 to April 8, 2020; and

- (f) After the raw aggregate pit run was crushed to contract specifications, stockpiled the aggregate on the Shankowski Land until transported to the MD of Bonnyville yard, where I understand it was stored until needed.
13. RBEE did not crush or extract any raw aggregate pit run from the Havener Land, and no aggregate testing was done by J.R. Paine of aggregate from the Havener Land, in respect of the Bonnyville Contract. Had aggregate been extracted from the Havener Land and supplied to the MD of Bonnyville, JMB would have paid royalties to the Haveners, which it did not. Attached hereto as **Exhibits "H"** and **"I"** are copies of the Havener Royalty Statements for February to April, 2020, and the ticket data showing aggregate hauled by JMB for the supply of the Bonnyville Contract was hauled from the Shankowski Land, which information was used to calculate royalties owing to Shankowski.

**The Liens**

13. On May 13 and May 15, 2020 respectively, J.R. Paine and RBEE registered liens pursuant to the *Builders Lien Act*, RSA 2000, c B-7, being instrument numbers 202 104 972 (J.R. Paine) and 202 106 449 (RBEE) on title to the Havener Land (the "**Havener Liens**"), which is legally described as:

15. I swear this Affidavit in support of an Application to declare the Havener Liens, Shankowski Liens and the Additional RBEE Lien Claim invalid and to have the Havener Liens and Shankowski Liens discharged from the Havener Land.

**NOW THEREFORE THIS AGREEMENT WITNESSETH** that, in consideration of the mutual terms and conditions hereinafter contained, JMB and the Vendor agree as follows:

**ARTICLE I DEFINITIONS**

In this Agreement:

1. "Aggregates" means, with respect to naturally occurring unprocessed material considered in bulk as mixtures of particles of different sizes, those materials commonly referred to as boulders, cobbles, gravel, sand and silt and all other granular materials of little or no plasticity such as are commonly used in the surfacing of roads and the construction of drainage works.

2. "Gravel" means that the type of Aggregate such that, on average, half or less by weight of the constituent particles will pass an opening 1.6mm (about one sixteenth of an inch) square.

3. "Sand" means that type of Aggregates such that, on average more than half by weight of the constituent particles will pass an opening 1.6mm (about one sixteenth of an inch) square.

4. "Machinery" means excavation equipment, crushers, screening equipment, mobile asphalt and soil-cement mixing plants, portable testing laboratories, weigh scales and storage tanks and shall include such other machinery, trucks, temporary structures and conveniences that JMB deems necessary for the prospecting, testing, getting, processing and hauling out of Aggregates, but shall exclude any structures whose primary purpose is residential in nature.

#### ARTICLE II ACCESS TO AGGREGATES

The Vendor agrees to exclude all other gravel marketing agents or agencies from the Lands, and agrees to allow JMB, his agents, servants and workmen full and free exclusive access at all times to and from the Lands, and agrees that JMB may, at his own expense:

1. Do all such acts as may be necessary for the purpose of effectual exploring, prospecting for, testing, getting, processing, and disposing of Aggregates contained in the Lands.
2. Take upon the Lands and use without hindrance such Machinery as JMB deems necessary, and
3. Place or pile upon the Lands without further charge any excavated or processed Aggregates, rejected or reclaimed material, topsoil or overburden necessary for the duration of this Agreement.

#### ARTICLE III WEED CONTROL

Overburden and waste material will be disposed of or piled in such a manner as to facilitate weed control wherever such disposal or piling is practicable.

(1.24 dollars per CUBIC YARD) of accepted SAND removed from the Lands.
3. JMB shall pay the vendor 5.00 dollars per TONNE  
(6.20 dollars per CUBIC YARD) of pea gravel removed from the Lands.

Such payments are due ninety (90) days after the sand and gravel has been removed from the Lands. Such payments shall in all cases be compensation in full for Aggregates removed from the Lands.

## **ARTICLE V MEASUREMENT OF AGGREGATES**

Aggregates will normally be measured by weight for the purpose of Royalty Payment unless, in JMB's opinion, to do so would be impractical, in which case measurements shall be by volumes determined by cross-section or truck-box methods. Where necessary, conversions from volume to weight, and vice versa, shall be made using a factor of 1.632 tonnes per cubic meter for gravel and a factor of 1.365 tonnes per

cubic meter for sand, or a factor of 1.24 tonnes per cubic yard for gravel and a factor of 0.836 tonnes per cubic yard of sand.

The Vendor agrees that there shall be NO COMPENSATION for:

- 1 Unaccepted materials stripped from the Lands or rejected during processing.
2. Materials such as silt, sand, gravel, oil, lime cement or other additives brought to the Lands by JMB.

## **ARTICLE VII DEVELOPMENT AND RECLAMATION APPROVAL**

1. JMB undertakes to make any necessary application for Development and Reclamation approval to Alberta Environment and local authorities insofar as JMB operations.
2. JMB shall carry out reclamation of the Lands as may be directed by the Minister of the Environment or his agents under such Acts and Regulations as may from time to time be in effect. Such reclamation shall be limited to that occasioned by land disturbances resulting from JMB's operations.

- JMB will produce to a maximum of 20,000 tonnes per year for Shankowski at a rate of \$3.50/tonne. Actual quantity will be mutually agreed upon prior to crushing.
- JMB agrees to renegotiate/review this Royalty Agreement midway through this contract on August 19, 2018

**ARTICLE IX REMAINING STOCKPILES**
