Remedy claimed or sought:

- 1. The Applicant seeks:
 - (a) a Sale Approval and Vesting Order ("SAVO") approving a sale of substantially all of the assets of the Applicant to 2122256 Alberta Ltd. o/a Heavy Metal Equipment & Rentals (the "Purchaser") (and the sale herein referred to as the "Transaction") arising out of the Sales and Investment Solicitation Process ("SISP") previously approved by the Court with the SAVO specifically including:
 - (i) assignment of certain contracts to which the Applicant is a party to with Syncrude Canada Ltd., Suncor Energy Inc. ("Suncor") and the Government of Alberta Forestry and Parks (collectively the "Assumed Contracts");
 - (ii) if necessary, authorizing the sale of assets which the Applicant leased from certain equipment lessors;
 - (b) an Order modifying the key employee retention plan ("**KERP**") to provide for certain adjustments as to who would be entitled to certain payments in respect of the KERP without modification to the total amounts payable thereunder;
 - (c) an Order affirming the continued applicability of the *Wage Earner Protection Program Act* (Canada) SC 2005, c. 47 ("**WEPPA**") to the Applicant;
 - (d) an Order authorizing an interim distribution of up to 50% net sale proceeds to secured creditors and equipment lessors ("Interim Distribution"); and
 - (e) a Sealing Order with respect to the Supplementary Confidential Affidavit of Bryn Jones sworn April 7, 2025 ("**Fifth Confidential Affidavit**") and the Confidential Appendices to the Monitor's Second Report ("**Monitor Appendices**") until December 31, 2025.
- 2. The form of SAVO sought is attached as **Schedule "A"**.
- 3. The form of Order sought with respect to the KERP adjustment, WEPPA declaration and Interim Distribution is attached as **Schedule "B"**.
- 4. The form of Sealing Order sought is attached as **Schedule "C"**.
- 5. Such further and other relief as the circumstances may require and the Court deems appropriate.

Grounds from making this application:

Background and CCAA Proceedings

- 6. On December 5, 2024, the Applicant filed a Notice of Intention to Make a Proposal ("**NOI**") under the *Bankruptcy and Insolvency Act*, RSC 1985, c B-3 ("**BIA**").
- 7. On January 10, 2025, an Initial Order pursuant to section 11 of the *Companies' Creditors Arrangement Act*, RSC 1985, c C-26, as amended (the "**CCAA**") was granted by the Honourable Justice M.J. Lema in respect of the Applicant, which continued the NOI proceedings into these CCAA proceedings, and which

- included a stay of proceedings to and including January 20, 2025. FTI Consulting Canada Inc. ("FTI") is the Monitor within these CCAA proceedings ("Monitor").
- 8. Also on January 10, 2025, the Honourable Justice M.J. Lema also granted an Order approving the SISP (with the Order approving the SISP being the "Order Approve SISP") over the Applicant's undertaking, property and assets ("Property"). Ernst & Young Orenda Corporate Finance Inc. (the "Sales Agent") administered the SISP as Sales Agent, with oversight from the Monitor.
- 9. On January 20, 2025, the Honourable Justice J.T. Neilson granted:
 - (a) an amended and restated initial order ("Amended and Restated Initial Order" or "ARIO") which extended the stay of proceedings to June 16, 2025 and approved a key employee retention plan ("KERP"); and
 - (b) an order authorizing a process to return certain leased equipment to respective equipment lessors (the "Lease Equipment Return Order"), which process permitted the Applicant, subject to Monitor's approval, to return certain leased equipment which is unnecessary for current operations and which has little or no equity.
- 10. The Applicant has, at all times, acted with good faith and due diligence.

Sales and Investment Solicitation Process and Approval of the Transaction

SISP Process

- 11. The SISP was implemented by the Sales Agent and has now concluded. The Property was marketed on a world-wide basis with interest expressed, and due diligence undertaken, by parties from as far away as Australia.
- 12. The SISP had certain deadlines for the marketing of the Property and for any interested parties to put forth offers, namely:
 - (a) Marketing Period Launch January 15, 2025;
 - (b) Virtual Data Room Open January 17, 2025;
 - (c) Phase I Bid Deadline February 28, 2025; and
 - (d) Phase II Bid Deadline March 28, 2025.
- 13. The SISP:
 - (a) was developed with input from the Applicant, Sales Agent and the Monitor, and the Applicant's primary secured creditor, a syndicate of lenders led by ATB Financial and including Canadian Western Bank, Export Development Canada and Laurentian Bank of Canada (collectively, the "Syndicate"). No party opposed the SISP;
 - (b) was a Court-ordered process administered by the Sales Agent and overseen by the Monitor, in accordance with the terms of the Order Approve SISP;
 - (c) was a process instituted after consultation with the Monitor, Sales Agent, Syndicate and Applicant; and

- (d) included broad marketing efforts:
 - (i) teaser and draft non-disclosure agreements ("NDAs") were sent to 2,391 individuals and 923 companies originally. In addition, all individuals, companies or brokers which the Applicant had previously been in contact with respecting potential asset sales were contacted:
 - (ii) the outreach was global in scope;
 - (iii) a press release was issued at the commencement of the SISP;
 - (iv) a virtual data room ("VDR") was opened on January 17, 2025; and
 - (v) 58 NDAs were executed and those parties given access to the VDR;
- (e) the Applicant, in consultation with the Monitor, established the SISP in a manner that was intended to remove any adverse economic impacts upon stakeholders or potential buyers, and to permit any potential buyer to enter the SISP freely and without impediment, financial or otherwise. The purpose was to broadly expose the Property to the market, and solicit the highest and best price (whether as an *en bloc* offer, or offers in the aggregate totalling a greater value);
- (f) overall, the SISP was developed to be a process open to any interested buyers on a worldwide basis, and to permit the open market to determine the market value of the Property; and
- (g) the Sales Agent, with Monitor oversight, administered the SISP in a transparent manner in accordance with its Court-appointed duties.
- 14. 16 proposals were received in Phase I of the SISP, with those bidders who were qualified as Phase I Bidders pursuant to the SISP given an opportunity to conduct physical due diligence on the Applicant's Property, with several interested parties visiting the Suncor mining site where the majority of the Property is located.
- 15. 9 proposals were received prior to the Phase II deadline, including one unconditional offer for substantially all the Property (being the APA from the Purchaser).
- 16. The only party providing a deposit in accordance with the requirements of the SISP was the Purchaser, who made the *en bloc* offer for substantially all of the Property and executed an asset purchase agreement ("APA") in respect of same.
- 17. The Monitor, in conjunction with the Sales Agent, have reviewed the offers received pursuant to the SISP and have concluded that the Transaction represents the greatest recovery for stakeholders. The Monitor and Sales Agent support approval of the Transaction.
- 18. The Applicant's primary secured creditor, the Syndicate, also supports the approval of the Transaction.
- 19. While the purchase price within the APA is lesser than prior appraised values, those values were based upon market assessment as of December 2023. Market conditions have changed significantly since then, including by the imposition and threat of further tariffs by the United States Government.
- 20. The SISP was conducted in a fair and reasonable manner, the market for the Property has been tested and while the recovery, if the Transaction is approved and closes, is not sufficient to retire all the

Applicant's obligations, the Transaction generates the greatest value for stakeholders and is a price reflective of current market value.

Leased Assets

- 21. Of the Property proposed to be sold as part of the Transaction, approximately 30% of the Property is leased by the Applicant from various equipment lessors.
- 22. Two lessors have capital or true leases with the Applicant: John Deere Canada ULC ("John Deere") and Jim Pattison Industries Ltd. ("JPI").
- 23. No assets of JPI are being sold as part of the Transaction. John Deere is being consulted as to whether they are agreeable to their assets being sold as part of the Transaction. Current information is that it is expected that John Deere will allow its assets to be sold as part of the Transaction.
- 24. The remainder of the leased assets are subject to financing leases in the Applicant's opinion. The Order Approve SISP, Lease Equipment Return Order and the nature of these financing leases permit the sale of those assets as part of the Transaction.
- 25. Of the financing leases, lessors with interest in the vast majority of the leased assets proposed to be included in the Transaction are expected to be agreeable to their assets being included in the Transaction. Those lessors holding the vast majority of the leased assets proposed to be including in the Transaction have been consulted.
- 26. The APA includes provisions whereby if certain Property originally included in the APA does not form part of the ultimate Transaction, the purchase price is accordingly adjusted pursuant to the value attributed to the respective asset in the APA.
- 27. While at time of filing this Application not all equipment lessors have consented to the Transaction:
 - (a) it is actively communicating with all affected equipment lessors, and advising of the pending Transaction, proposed sale values and that they will be asked to contribute to the costs of these CCAA proceedings; and
 - (b) lessors with the vast majority of the leased assets proposed to be included in the Transaction are expected to be agreeable to their assets being included in the Transaction.
- 28. In the event that not all equipment lessors consent to their assets being part of the Transaction pursuant to ongoing discussion, and if the parties cannot otherwise reach a resolution prior, this Application can be used to determine the Applicant's ability to sell said leased assets.

Assumed Contracts

- 29. The four Assumed Contracts, of which the Applicant is a party to, form part of the Property subject to the Transaction.
- 30. The CCAA provides the Court jurisdiction and the discretion to make an order assignment the rights and obligations of the Applicant.
- 31. The Monitor is supportive of the assignment of the Assumed Contracts.

- 32. The Purchaser is willing and able to perform the obligations of the Assumed Contracts and to the Applicant's knowledge, has an existing Multiple Use Agreement with Suncor and is therefore an approved supplier to Suncor. The Purchaser is a party capable of performing the Assumed Contracts.
- 33. The Assumed Contracts are an integral part of the Transaction and to the extent they are not included in the Transaction, the purchase price is reduced pursuant to the APA, reducing value to stakeholders.
- 34. In the circumstances where the Applicant is in the process of selling its Property and winding down most operations, it is appropriate that the Assumed Contracts be assigned to a party who is able to perform the obligations thereunder, and willing to accept the assignment of the Assumed Contracts.
- 35. There are no monetary defaults under the Assumed Contracts.

KERP Adjustment, WEPPA and Interim Distribution

- 36. With respect to the KERP adjustment, the proposed adjustment to the KERP, being payment of \$30,000, which was originally payable to two employees under the KERP who left employment with the Applicant on their own accord, to Daniel Klemke, who played an integral role in the SISP, is reasonable and appropriate. The amount payable under the KERP would not exceed what was previously approved by this Court.
- 37. With respect to the WEPPA declaration, in furtherance of the WEPPA declaration granted as part of the ARIO, if the Transaction is approved and the Sale closes, there will be a significant further reduction in the Applicant's staffing. WEPPA would continue to apply to those non-union employees.
- 38. With respect to the Interim Distribution, if the Transaction closes, net sale proceeds in excess of \$100,000,000 will be received. Neither the Applicant, nor the Monitor, needs to hold that entire amount and it is reasonable for the Monitor to distribute up to 50% of the net sale proceeds from the Transaction to those respective creditors whose collateral is sold as part of the Transaction.

Sealing Order

- 39. With respect to the Sealing Order, the Fifth Confidential Affidavit and Monitor Appendices contains information with respect to value of the Property, and the Assumed Contracts. A sealing order with respect to the Fifth Confidential Affidavit and Monitor Appendices is necessary and appropriate with respect to the Fifth Confidential Affidavit as:
 - (a) disclosure of the information would be detrimental to any further marketing efforts for the Property, if the Transaction does not close;
 - (b) if the requested Sealing Order is not granted and the Transaction does not close, creditor recoveries may be reduced;
 - (c) reasonable alternative measures will not prevent the risk; and
 - (d) the benefits of the Sealing Order to the process and all stakeholders outweigh the deleterious effects on the rights and interests of the public in accessing the information at this time.

40. The Sealing Order is temporary relief sought to apply until December 31, 2025, being the same date as prior Sealing Orders in these proceedings, unless further extended by Court Order.
